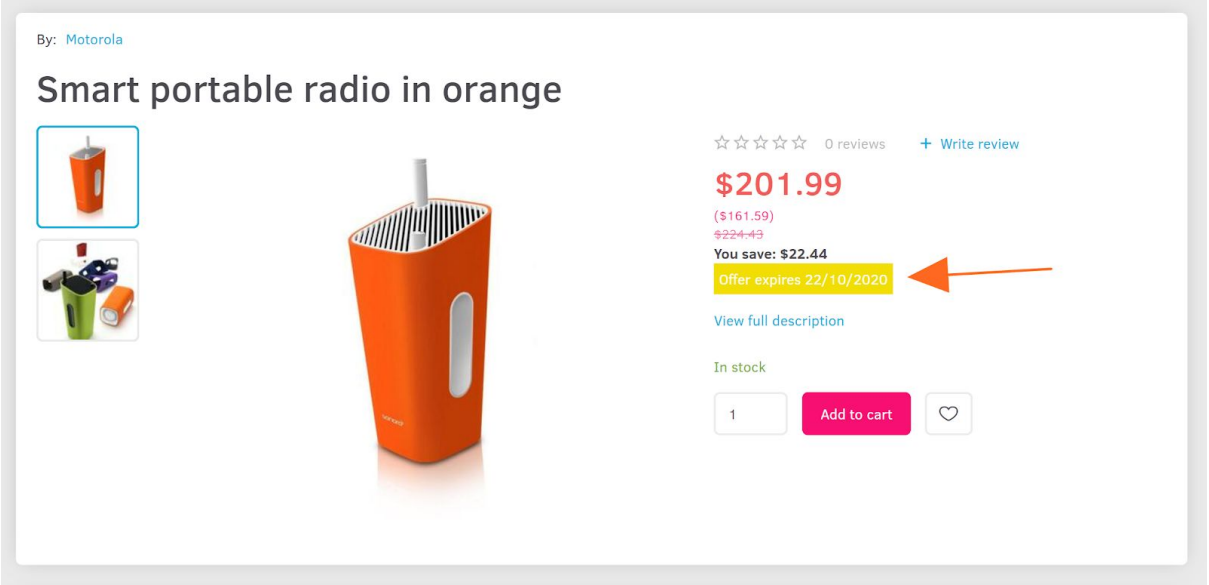
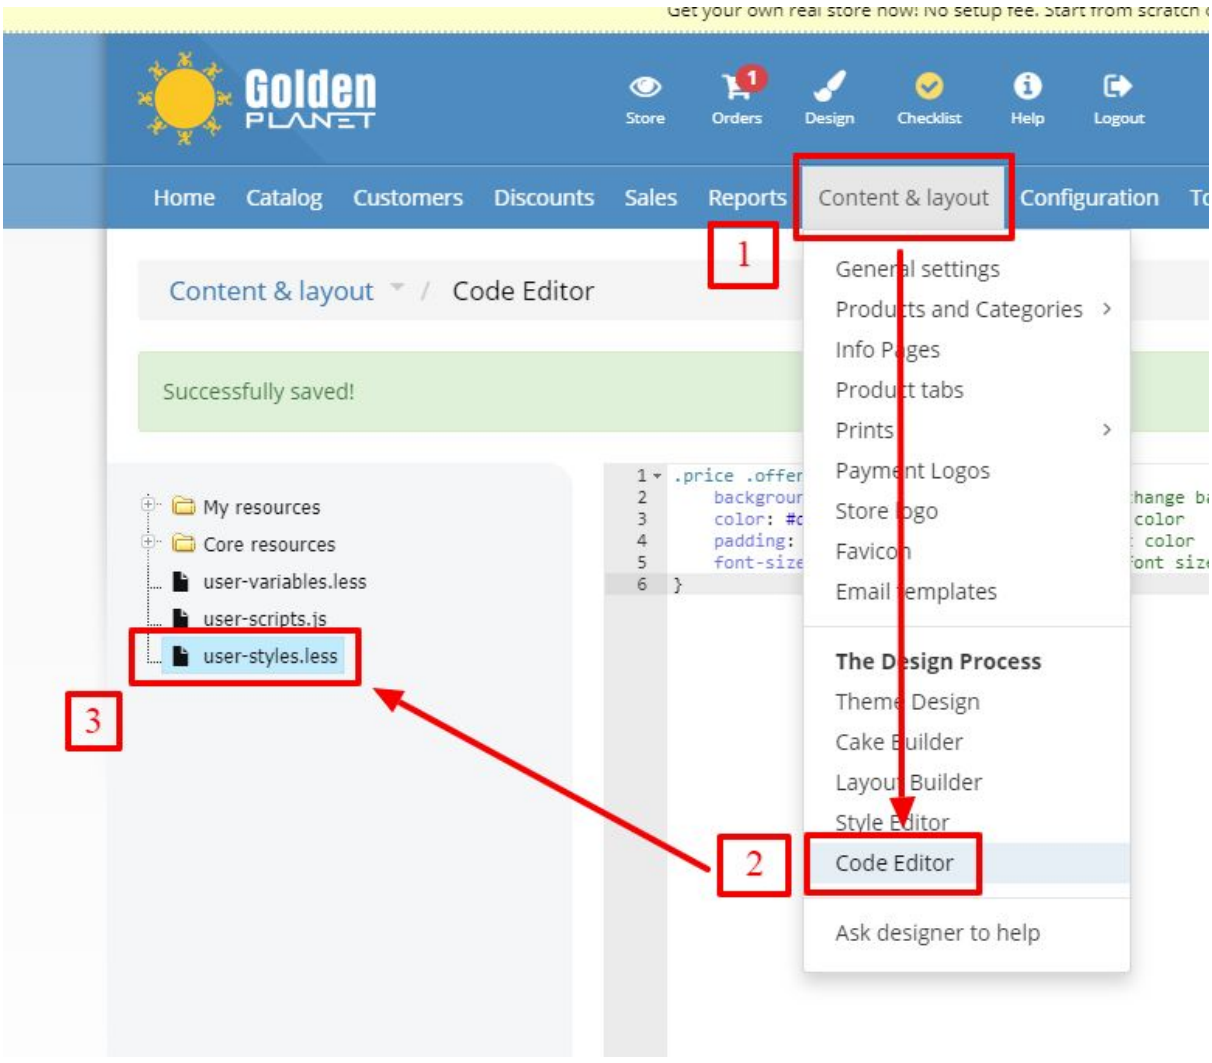
Style guide: Special price expire date block

This is how you style this block which tells users when a special price will expire:



To do styling of special price expire date block, go to
Content & Layout => Code Editor => user-styles.less file

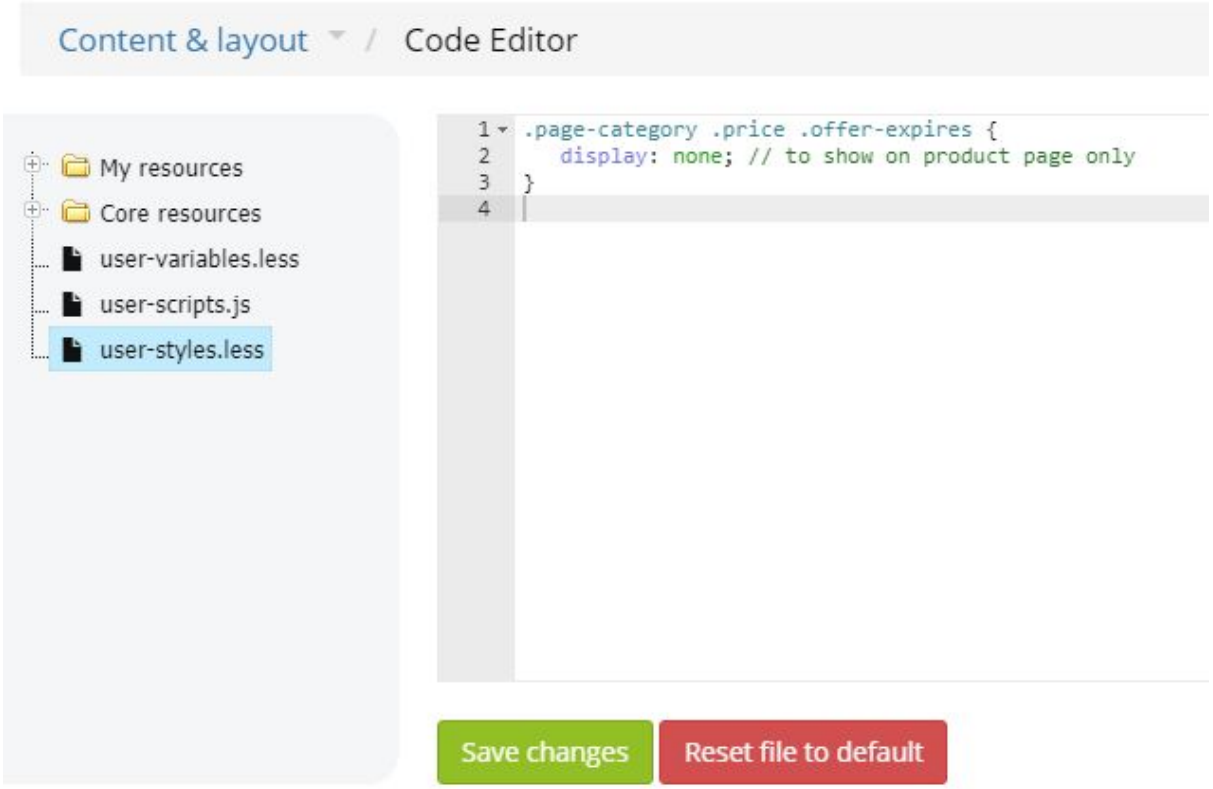


and add these code blocks:

to show on product page only - add

```
.page-category .price .offer-expires {
   display: none; // to show on product page only
}
```

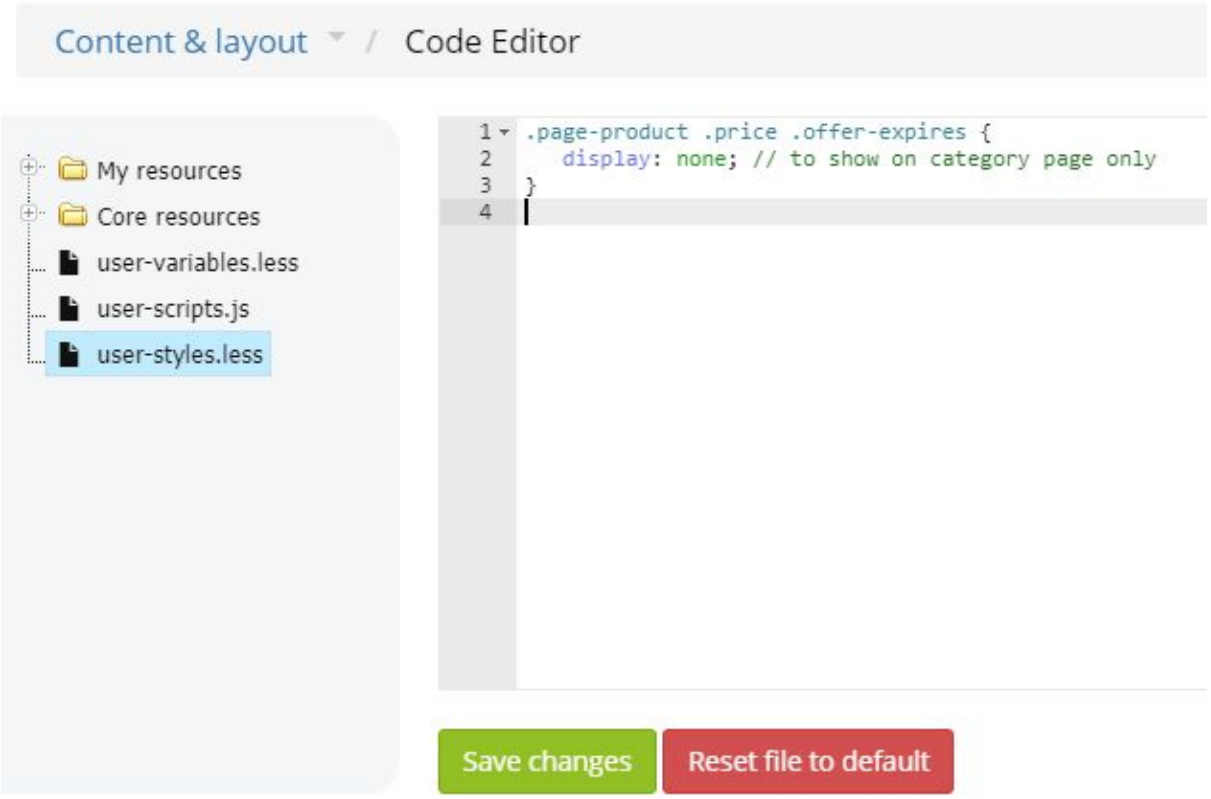
and click “Save changes” button (see screenshot)



to show on category page only - add

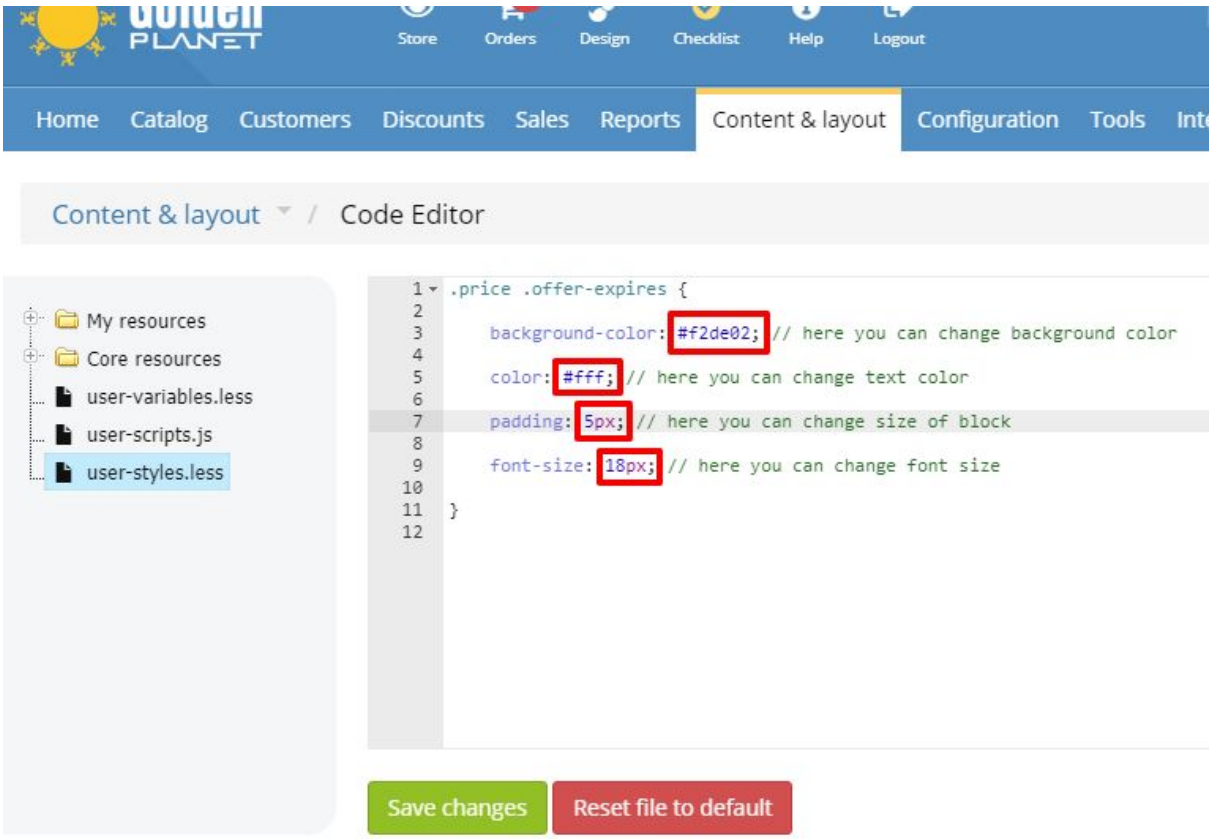
```
.page-product .price .offer-expires {
   display: none; // to show on category page only
}
```

and click “Save changes” button (see screenshot)

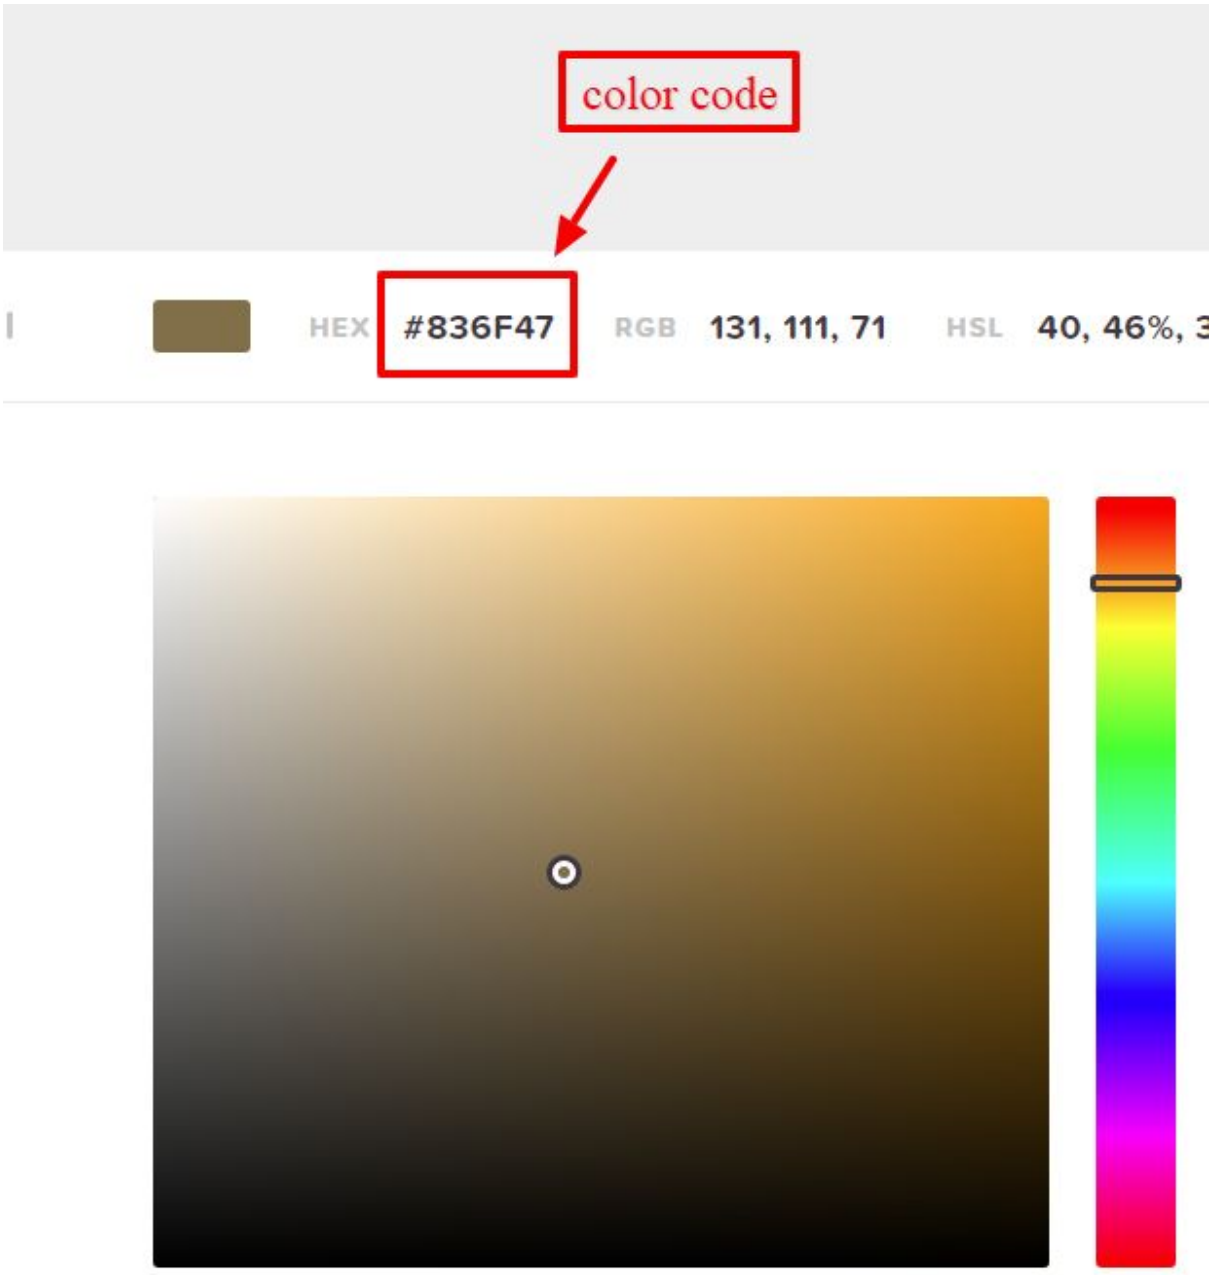


if you want to change text color, background color or text size of this block, add this code, edit values you want to change (selected on screenshot) and click “Save changes” button.

```
.price .offer-expires {
    background-color: #f2de02; // here you can change background color
    color: #fff; // here you can change text color
    padding: 5px; // here you can change size of block
    font-size: 18px; // here you can change font size
}
```



Color codes you can get from this page https://htmlcolorcodes.com/color-picker/ - just use picker to find the color you want and use it in code for background or text color (screenshot)



if you want ro reset your changes - just delete these blocks from user-styles.less file and save it.
